Traditional Oil-Based High Gloss

Product Code: CGWE

Product Description

Traditional Oil-Based High Gloss is an alkyd-based gloss finish coating for interior & exterior wood and metal.

Intended Use

Traditional Oil-Based High Gloss is a solvent-based Gloss finish suitable for use on interior & exterior wood and metal over suitably primed surfaces. It is hardwearing and easy clean.

Product Information

Colours:	An extensive range of colours through our tinting system
Finish:	Gloss
Specific Gravity:	1.38cm ³
Volume Solids:	60% approx. depending on colour
Practical Coverage:	14-18 sqm/litre depending on the porosity of the surface
VOC / Litre:	<300g/l

Application Details

Application	Apply light coats to avoid excessive film thickness. Stir thoroughly before use. Do not over thin.
Application Method	Brush or short pile mohair roller
Thinning	Low odour white spirit
Cleaning	Low odour white spirit

Drying Time

Allow a minimum of 16 hours between coats.

Surface Preparation

All surfaces must be clean and dry. All loose or defective paint must be removed. Previously painted surfaces must be clean and grease free. New or bare surfaces should be primed with appropriate Castle primer / undercoat before application of Castle Traditional Oil-Based High Gloss. Deep colours may require additional coats.

Note: As this is a solvent-based product white or off-white colours may 'yellow' in some environments especially darker areas or areas not receiving much natural or UV light.
